Thomas Kennerly Wolfe Jr. (March 2, 1930 – May 14, 2018) was an American author and journalist. He achieved national prominence in the 1960s following the publication of *The Electric Kool-Aid Acid Test*. In 1979, he published the influential book *The Right Stuff* about the Mercury Seven astronauts. His first fiction novel, *The Bonfire of the Vanities*, published in 1987, was met with critical acclaim, and also became a commercial success.
