

My Brewerytown Garden Plot & Veggies

Memory ID: GQSBFCGJF5

Produced by: SM J

This is a Memory of my garden plot @ Brewerytown Garden, which is filled with all kinds of organic veggies including: kale, collards, carrots, various lettuces, golden grape tomatoes, heirloom tomatoes, radishes, scallions, turnips, potatoes, eggplant, plus parsley, chives, rosemary, sage and more. We save thousands of \$s a year by growing our own organic food. It's not just super relaxing and fun. It's a great way to get to know our neighbors.
