

dEATH in dAVOS

Memory ID: GRLQ4EO7XF

Produced by: **D. Johnson**

Here are some photos and illustrations that were inspired by dEATH in dAVOS by J.G. Sandom, about a teen serial killer who gets herself invited to the World Economic Forum in Davos, Switzerland, ostensibly because of an app she's developed, though in reality to take out nefarious billionaires who have committed horrible crimes but whose great wealth insulates them from prosecution and punishment.
