Opportunity, also known as MER-B (Mars Exploration Rover " B) or MER-1, and nicknamed Oppy, was a robotic rover that was active on Mars from 2004 to 2018. Launched on July 7, 2003, as part of NASA's Mars Exploration Rover program, it landed in Meridiani Planum on January 25, 2004. Opportunity exceeded its operating plan by 14 years, 46 days (in Earth time), 55 times its designed lifespan.
