Razan Ashraf Abdul Qadir al-Najjar (1997-6/1/2018) was a Palestinian nurse/paramedic who was killed by the Israeli Defense Forces (IDF) while volunteering as a medic during the 2018 Gaza border protests. She was fatally shot in the chest by an Israeli sniper as she, reportedly with her arms raised to show she was unarmed, tried to help evacuate the wounded near Israel's border fence with Gaza. B'Tselem said the killing was intentional.
