

Molly - rags to riches mutt hound

Memory ID: WND7AG3770

Produced by: Penny Goodwill

Molly was a street dog in Cabuya, Costa Rica. Born on the wrong side of the mango grove.

When we rescued her (actually, she found us and started sleeping on our doorstep) she was what the locals referred to as a "flat dog," meaning you can hardly see her lying in the dirt road because she is so thin. She was starving and dying from the local tick disease, ehrlichea.
