

Albert Einstein

Memory ID: XU32Y3USKF

Produced by: **MemoryBox**

Albert Einstein is perhaps the most influential scientist and theoretical physicist of the past century. He is known for the equation $E=MC^2$ and contributing to the Manhattan Project. Having helped to develop the nuclear bomb, Einstein later worked assiduously for peace. And as a Jew, he warned against the racist ramifications of Zionism. Show your appreciation for Albert Einstein by posting your favorite pics to this Collective.
